

CUBAN TROOPS DEFEATED BY INSURGENT BAND

Taft and Bacon go to Make Peace

PRESIDENT TAKES A HAND Havana in Tremble Lest Rebel Chief May Swoop Down Upon Them

HAVANA, Sept. 15.—Gen. Rodriguez with 1,000 men, encountered Castillo and Asbert near Wajay. The government announces the insurgents dispersed, but the rebels declare the government was repulsed and retreated. The government reports three killed. The insurgent loss is unknown.

Guerra is in striking distance. The loyalists were driven into the suburbs. Guerra and Castillo are planning a junction of forces, combined to attack this city. The army will then number 6,000. The government is only able to marshal half this number in opposition.

Fighting is reported at El Cano, ten miles from this city.

It is feared Guerra will attack the city despite Roosevelt's letter. It appears more likely, however, the insurgents are getting their army into the best possible shape to array them before the city and invite Taft and Bacon, who have been ordered to Cuba, to review them in the field and impress upon the Americans the fact that only American intervention can save the city from capture.

It is known now that Rodriguez's engagement at Wajay was a defeat. He attacked the insurgents advance at Wajay, eight miles from here with cavalry and was driven into the city with a loss of three killed.

The cabinet was in extraordinary session all morning, considering Roosevelt's letter. Two thousand troops were drawn from Cienfuegos to protect the capital. The residents here are panic stricken, fearing a bombardment by Guerra.

The Des Moines arrived in the harbor this morning and anchored beside the Denver.

WASHINGTON, D. C., Sept. 15.—It is announced today that Palma notified this government two days ago he would likely be unable to protect American interests in the vicinity of Cienfuegos. Probably this prompted the president's celerity.

Sleeper cables today there is much uncertainty regarding the status of the plantations belonging to Americans reported yesterday to be destroyed.

Authentic denials that any were burned have been received.

Holiday, consul at Santiago, cables that there are no active operations by the insurgents in that province, but 50 men are under arms ready to take the field when ordered.

Sixty marines from the Charleston navy yards and sixty-five from Portsmouth, N. H., are enroute to Norfolk to board cruisers for Cuba.

President Roosevelt's letter points out that anarchy prevails in the island; that American interests are endangered and declares in no uncertain words that these conditions must cease if Cuba is to retain her independence. The communication of the president is addressed to the Cuban minister to the United States, Senor Quesada. It is an impassioned plea to Cuba to realize her responsibility as a self governing republic and to restore peace. Her attention is called in sharp language to the responsibility which the United States bears to the republic and the certainty that such responsibility will necessarily be exercised should peace not be preserved.

McDONALD GETS OFF IN COURT

Technicality Frees Doctor From Trial on Serious Allegation

The suit in equity of John Bendel against Dr. H. J. McDonald to set aside a chattel mortgage alleged to have been secured by "loan shark" methods, was thrown out of court today on the decision of the court that the plaintiff had a remedy at law and that the suit in equity was improper.

From the information in the complaint John Bendel went to Dr. McDonald Nov. 13, 1903, to borrow \$150, the doctor demanding a chattel mortgage for \$175 on his cattle to secure the loan. This was given, the mortgage being made out to Cora Hass, a girl employed by McDonald. Bendel alleges he paid McDonald \$225 which was \$75 more than he borrowed, and that he was compelled with threats of oreclusion to give a second mortgage for \$155 on his thirty-four head of cattle for deferred payments.

Attorney L. W. Gosnell for the plaintiff brought a suit in equity to have the second mortgage set aside.

The trial today was expected to develop some interesting phases of the "loan office" business as conducted in La Crosse, but upon motion of C. L. Hood for the defendant doctor, that the plaintiff should seek a remedy at law, the case was dismissed by Judge Fruit.

It is alleged by plaintiff's attorney that Dr. McDonald now threatens to sell Bendel's cattle upon which he holds the alleged improper mortgage. The plaintiff's attorney will, he declares, replevin the cattle instantly, if any such course is resorted to by Dr. McDonald.

Further steps to set aside the mortgage will be taken by Bendel, it is said.

Several naturalization papers are being issued by the court at the old \$2 rate. The new rate goes into effect Sept. 27.

SAID HE WOULD KILL, THEN DIE

All the Elements of Shocking Kentucky Fued in Campbell Case

Telling his wife, it is alleged, that he would kill William Wolf, chairman of the town of Campbell, and suicide, if the latter tried to take his threshing machine over his land, William Peters, a Campbell farmer rushed at the trespassers, but feared to carry out his threat when the crucial moment arrived.

Today William Wolf secured from Judge Brindley an order to bring Peters into court to give bond to keep the peace, which was placed in the sheriff's hands for service.

In a nutshell, the story which culminated in the fining of both Wolf and Peters in court yesterday for using abusive language and threatening with a deadly weapon, respectively is: Louis, William and George Wolf accompanied by Louis and Joseph Kindhamer took their threshing machine, Wolf's property, up a private lane, and owing to muddy roads found it necessary to go into a pasture belonging to Peters to get a stick. Peters' sons warned the men that their father was furious and had loaded his shotgun to kill them. "Let him come on," said William Wolf, and come he did. He aimed the shotgun at them, and in the face of the danger Louis Kindhamer walked up to the enraged man and dared him to shoot. There was a discussion during which William Wolf called Peters bad names. The thresher was taken on through and the warrants followed.

Peters was advised by the court to drop the matter as he was as guilty as the others, but he insisted upon his rights and the warrant for Kindhamer was issued. Kindhamer secured a warrant for Peters, appealing his own case in which he was fined \$1 for using abusive language. Wolf has now secured the order for Peters to keep the peace, and if the other litigants so desire they can secure individual warrants for Peters for threatening them with a gun. This, however, may not be done.

GIRL STRUCK HER FATHER, AGED 73

The 17-year-old daughter of Ralph Mosher, aged 73, brother of the late "Miff" Mosher, was fined \$2 and costs by County Judge Brindley this morning for striking her father with a pail. The girl claimed her father attempted to beat her and she grasped the pail away from him and hit him on the leg with it. The old man said she broke his rib.

Mr. Mosher seemed dissatisfied with the decision, believing a more severe penalty should be inflicted, but said he did not want the girl put in jail, when that course was suggested. The total costs and fine amounted to \$7.15.

FAITH'S FOUNDATION FACT

Dr. Fowler Returns to Discuss Affirmations of Apostles' Creed

There is so much of present day dispute over great points in the apostles' creed that Rev. J. K. Fowler of the First Presbyterian church proposes to deal with these questions in a series of coming sermons. The first one, "I Believe in God," is treated Sunday night. The second, "I Believe in His Only Son, or Christ, the Central Evidence of Christianity," Christianity," comes a week later, and others follow on. These fundamentals of religion, treated in a practical way, should awaken wide interest and do eternal good.

CHICAGO MAY BUY STREET RAILWAYS

(Scripps-McRae Dispatch.) CHICAGO, Ill., Sept. 15.—Judge Windes, in circuit court today sustained the Mueller law which permits the city to issue certificates for \$75,000,000 for the purchase of the street railways. The court declared the bill seeking to restrain the city from issuing the certificates had no equity. The case is expected to go to the appellate and supreme courts.

WOMAN FAINTS AS CRASH IMPENDS

The coolheadedness and celerity with which Motorman Harry Rippey acted on a street car at the "Mill street crossing just after noon today saved twenty-seven passengers on his car from serious injury and perhaps death. The gates at the crossing had been carelessly left open and the car was speeding down the hill to cross the tracks, when a caboose, pushed by an engine, was seen swiftly approaching. The motorman applied the brakes just in time to prevent a crash. Ductor Morris was on the street car. Ductor Morris was on the street car.

Freeport's "ringer," Raymond, the mysterious pitcher believed to be in reality all the way from Munch, crack twirler of the Chicago city league to Mathewson or "Rube" Waddell, flew to pieces like a piece of rusty machinery in the eleventh inning, and before the Freeport filibusters could catch their breath (which, by the way, was quite an undertaking) four La Crosse players cruised over the home plate, and administered crushing defeat to the tune of 7 to 3. Even Peters, Moriarity's own specially paid umpire, could not render enough rank decisions to change the result, though he tried various times to "hand it to" La Crosse and benched Bond when the latter remonstrated over an especially "raw" decision.

And to return to "Raymond," he will probably sink back to whence he came and nurse his "kinked" arm some more. Moriarity, together with his infield, went to pieces yesterday in the eleventh inning and La Crosse "lit" on the sphere like a panther on a mountain goat and simply chewed off the rawhide.

La Crosse now stands a fair show to defeat the Freeporters for the pennant, and if the champs win, then will have won over the worst set of "eggmen" tactics ever practiced in league baseball. With the umpire, the league president, and evidently the big association officers, turning against them, and with Outlaw Moriarity spending some "angel's" cash like water to hire major leaguers, La Crosse should certainly be tendered a \$10 a plate banquet if she captures the flag.

Besides being landed for ten hits yesterday, "Raymond" the mysterious, played his position in the field in a manner which caused most of the Freeport fans want to start something.

George started the game for La Crosse, but allowing three hits in five innings Manager "Pink" Hawley decided to put in Schneiber to save the day, which the big fellow did in great shape, recording his sixth clean victory over his old teammates. If Schneiber had pitched the entire game it is not believed more than nine innings would have been required to put down the Bandits.

La Crosse made its first runs mainly on errors and with the score 3 to 3 the game continued for some innings without change. With the score close Peters, Moriarity's umpire, had his first chance to show his bias. In the ninth Peters gave a "raw" decision against La Crosse, at which Capt. Bond protested, giving the Freeport umpire another chance to weaken La Crosse by benching the third baseman. Dolan was called in to third

STAGE AMUSEMENTS

FRED MACE AS "THE UMPIRE"

This season's most portentous theatrical offering in the year 1906 will undoubtedly be "The Umpire," which is due to reach the La Crosse theater on Monday, Sept. 17. It will be remembered that this is the musical comedy which played havoc with all the long run records in Chicago last season, having been performed something like 350 times without interruption, and with the public at the close of the engagement clamoring for more. Several masical features of merit are claimed for "The Umpire," among them being the timely nature of its several themes—baseball, football, "graft" politics, diplomacy and other topics of current interest, to say nothing of the blithe little romance that fairly sings its way through the piece. There is a strong dramatic plot, a rapid fire system of comedy, any quantity of the music that the people like, and an excellent cast of comedians and dancing and singing girls. The production, being under the direction of Manager Harry Askin of the Grand Opera House, Chicago, a more than adequate scenery and costumes is assured. The company contains Fred Mace, Guelma Baker, Edith Yerrington, Margaret MacDonald, Harry Hanlon, Helena Sallinger, Bradlee Martin, Raymond Wells, Ethel Pennington, and many others including the famous Umpire "broilers."

The College Widow.

With Miss Louise Rutter in the title role, "The College Widow" returns to the La Crosse theater Thursday, Sept. 20, to repeat its highly successful engagement of last year. Upon its former engagement both Mr. Ade's play and Mr. Savage's players earned adjectives seldom applicable to theatrical effort, and the approving verdict of the public was ratified by the unrestrained enthusiasm of the press. Since last seen here, "The Widow" has played nearly everywhere with identically same results. Even the south, where the football vogue is not as pronounced as elsewhere, took so kindly to the Ade comedy, that new records for receipts were made, and the enthusiasm aroused was in consonance. In short, the play has met with a series of ovations which doubtless justifies the claim of the management that "The College Widow" is the most successful American comedy of all time.

Besides Miss Rutter, the cast will include Estella Dale, Bessie Toner, Patty Allison, Francis Chase, Rosalind Allin, Elizabeth Van Sell, Helen Torrey, Robert Kelley, J. Beresford Hollis, Otis Turner, Alan Brooks, Frank Wunderlee, Wilson Deal, George S. Trimble, George C. Odell, John Fenton, Allen Bennett and Ernest Anderson.

A Homespun Heart.

play essentially written for the people at large—dealing with the doings of common every day life, a delightful rural idyl—greatly enhanced by a lavish display of costly scenery. Here is a performance to which you can take your best girl—your sister—or your mother, for fun, without vulgarity, and have no fear but that they will enjoy it throughout. The play is full of genuine heart interest and good wholesome comedy. There is a homelike naturalness pervading the whole performance, that makes one forget they are at a play. "A Homespun Heart" will be presented by the Frank Wunderlee, Wilson Deal, King-Perkins Comedy Company at the La Crosse theater, Friday, Sept. 21.

"Polly Primrose," Paul Nitstach's comedy drama of old Georgetown, made a big hit last night. Miss Juno Barnett as Polly Primrose was great in the leading role. She won the hearts of the audience from the time she arrived on the stage until the curtain

dropped. H. M. Wilson as Hugh Caulie, handled his part with the most care as an actor. Harry Mates as Jack Primrose, a brother of Polly had trouble with his sister trying to defend his Yankee friend Hugh Caulie. Robert Von Shinki as Oliver Chase, madly in love with Polly, made it very unpleasant for the young Yankee at times. The Ferris comedians will repeat "Polly Primrose" on Sunday afternoon. Tonight James J. Corbett's

masterpiece "Pals" will be presented. Sunday night "Moonshiners."

Wednesday evening John Hayes gave a dinner in honor of George Borreson of Pine Bluff, Ark. A pleasing feature of the dinner was the novel way in which the guests found their places at the table. Instead of the regulation, hand-painted pen and ink sketches or Japanese place cards there had been gathered the childhood pictures of the guests which were laid at each cover. There was a little confusion and trouble in some cases in recognizing the infantile faces of some of the members of the company as some, of their great satisfaction had passed through such radical changes that their own parents would not have known them without a label. Those invited were Messrs. George Borreson, Tracy Burke, Lloyd Lamb, Earl Pryor, Giles Doud, George Maine, Arthur Holmes, Percy Bentley, Harry Faville, Wilbur Holcomb, Alfred Mueller, Charles Tarbox, Myron Savage, Math Hosly, Fred Beisel, George Garrett, Max Burton, Arthur Funke and Will Rossiter.

GOOD PROSPECTS FOR OYSTERS

(Tribune Special Service.)

NORFOLK, Va., Sept. 15.—Expert opinion is to the effect that the oyster season which opened today will be one of the most prosperous experienced in Virginia waters for years. Oystermen have made preparations for a heavy crop. The oysters, too, are reported to be in good condition, and fine of flavor.

It has gone out of fashion to boast of never reading ads. Those who do not, nowadays, are inclined to keep quiet about it, as they would about any other personal short-coming.

OLBERG-MURPHY WEDDING

There was a brilliant gathering at the home of Mr. and Mrs. C. A. Olberg Tuesday evening, the occasion being the marriage of their daughter, Mildred and Mr. Harry Sawyer Murphy, of Fremont.

The ceremony was performed by the Rev. Henry Faville, pastor of the First Congregational church of which the bride is a member. The ring ceremony was used and the bride was given away by her father. Miss Margaret Robertson of Milwaukee was maid of honor and her sister, Miss Helen Robertson and Miss Ethel Olberg, sister of the bride were bridesmaids. Mr. Charles Pascoe of Fremont was best man and little Dorothy Hart, niece and namesake of the bride was flower girl. Masters William Cargill and Archie Olberg were ribbon bearers and George Cargill and Borge Gunderson were ushers. The four latter being pupils of the bride. At the appointed hour the bridal party entered the room to the strains of the Loehring wedding march played by Mrs. Percy Cilly and took their position under a lace draped canopy, draped with festoons and garlands of ferns and smilax. A white dove floated above their heads and love knots of tulle ribbons were suspended from the center of the canopy.

The rooms were one mass of beautiful fall flowers, relieved with a setting of smilax and asparagus ferns. The bride's table with covers for twelve was in green and white. The chairs of the bride and groom were tied together with large bows of broad white ribbon and over their heads was a lattice of smilax and ribbon. Suspended over the center of the table was a large fancy basket filled with asters and delicate asparagus ferns. Crystal candle sticks filled with white tapers gave a softened light to the surroundings. The parents and relatives of the bride and groom and Rev. and Mrs. Faville and out of town guests were seated at a long table while other guests were accommodated at small tables all handsomely appointed with cut glass, silver and delicate china.

The bride wore a beautiful creation of ivory white peau de cygne with a deep bertha of Duchess and Venetian point lace. Ruchings of narrow lace followed the seams of the gown. She wore a long veil of tulle fastened with a pearl brooch, the gift of the groom and a pearl necklace. She carried a shower bouquet of Japanese lilies and maiden hair ferns, tied with streamers of chiffon. The maid of honor wore a Parisian gown of white chiffon cloth trimmed with innumerable ruchings of narrow Valenciennes lace. She carried an armful of pink roses and wore a wreath of pink rose buds. Miss Helen Robertson also wore an imported costume of white chiffon over pink silk. Miss Ethel Olberg wore white Brussels net over pink and carried bouquets of maiden hair ferns and

wore wreaths of the same. There was a magnificent array of costly gifts consisting of Oriental rugs, cut glass and silver.

As the guests were being seated at dinner Miss Barbara Russell with her sweetly sympathetic voice sang "I know a Lovely Garden," and also several other numbers.

The bridal bouquet was caught by Miss Verna Van Wormer.

Among the guests from out of the city were Mr. and Mrs. Brown of Chicago, Mrs. Hannah Dahl of Wau-poon, grandmother of the bride, Mrs. O. N. Olberg, of Minneapolis, the Misses Helen and Margaret Robertson and Miss Jean Alexander of Milwaukee and Mr. Charles Pascoe of Fremont, Neb. Many telegrams of congratulations were received which were read by Rev. Faville during the dinner. Dr. and Mrs. Murphy left on the midnight Burlington for a short trip to Chicago and Milwaukee where they will be entertained by friends who were present at the wedding, after which they will go to Fremont, where the groom has a well established business.

TAYLOR-HANNEMANN

Miss Florence Ella Taylor, only daughter of Mr. and Mrs. George E. Taylor and Mr. Frederick G. Hanneman of Minneapolis were married Wednesday afternoon at the home of the bride's parents the Rev. John Wellington Hoag officiating. As the bridal party entered the room Miss Barbara Russell sang "O Promise Me." During the ceremony Miss Helen Lavake played Mendelssohn's wedding march and Miss Russell sang another number as the bride and groom were receiving congratulations.

The floral decorations of pink and white were elaborate and effective. The grill work between the archways was interlaced with ropes and sprays of smilax and asparagus, among which were woven pink roses and pink and white cosmos. The bridal party stood under a bower of wild clematis, whose starry white blossoms were accentuated by the vivid green foliage which drooped in graceful festoon at the sides. The bride's table was centered with a large bowl of roses enveloped in a cloud of fleecy chiffon. Traveling vines of asparagus ferns fell from the chandelier upon the snowy napery making a pretty and dainty effect.

Miss Elizabeth Taylor a cousin of the bride was maid of honor and Mr. Paul Giessler of Minneapolis was best man. Margaret Taylor another cousin and Margaret Barnard of Crookston, Minn., were ribbon bearers.

The bride's gown was of white Brussels net. She carried bride's roses and wore a necklace and cross of pearls and sapphires, one of her wedding gifts. The maid of honor wore a gown of white point de esprit over pink and carried pink roses.

DIRTY BASEBALL OF FREEPORT

Nobody ever heard very much about Freeport until she put a team in the Wisconsin state league.

Nobody has heard much good about her since.

If Freeport has a team in the Wisconsin league next year—which common gossip says she will not—the respectable people of Freeport should see that the executive body of their baseball club is composed of men who will maintain a standard of respectability in the team and its tactics and who will see that if the pennant is won, it is won by fair means, and according to the rules of baseball.

Freeport now enjoys the undesirable reputation of the "dirtiest baseball town" in the northwest. The methods of unfairness adopted by its baseball management to win the pennant by fair means or foul has aroused the furious indignation not only of La Crosse, but of every league club in Wisconsin, of every lover of fair sport, even though he reside in Freeport, for it is said that even the Freeport fans are ashamed of the methods employed.

La Crosse players, particularly, are shamelessly abused while playing in the "hoo-doo" town.

A La Crosse man who recently returned after seeing a series in Freeport says the players are followed about the streets before and after games by a crowd of fifty or more hoodlums hurling vile epithets and even missiles at them. At the grounds the hoodlums are equipped with revolvers which are fired throughout the game, parts of pop bottles are hurled at the players, hoodlums near the visitors' bench send spatters of tobacco juice at the players. A constant stream of vile names are hurled at them and threats of "beatings" are as numerous. Schneiberg is called a "Big Dutch carp," the team in general is termed "yellow dogs from Wisconsin," and other delicate language, unprintable, abounds in the vocabulary of the rosters.

This kind of baseball will not pay Freeport. She will be more disgraced to win the pennant by "rotten" means, than to lose it honestly. Her reputation will be that of the footpad who slinking behind his victim raps him with a "jiminy" to steal his gold.

If La Crosse loses the pennant, she will be the foodpads' victim.

If she wins it she will have surmounted all the obstacles a dirty baseball town could pile in her way.

A DEFINITION OF SUCCESS

When so much advice is tendered and so many definitions are given the word "success," it is worth while to quote the definition made by Richard Le Gallienne:

"Success consists in getting out of yourself all the good there is in you, or out of life all of worth there is in it for you."

That is comprehensive. Let us note where the emphasis is placed—Success consists in getting out of yourself, not all that is in you, but all the good that is in you. It consists in getting out of life, not all there is in it for you, but all of worth there is in it for you.

First, get out of yourself all the good there is in you. That is done by education. For the real meaning of education is in the meaning of the word from which it comes—educate—which means to draw out. You are to draw out of yourself all the best that is in you. You may be educated, in a sense, and raw out of yourself all that is bad within you. You can sharpen all the faculties of shrewdness into rascality if you so desire. Trickery, hypocrisy, deceit may be helped by education. Or you may draw out of yourself the inherent goodness that abides in honesty, decency, sympathy.

The education that is merely mental may be a curse rather than a blessing.

And so of the success that comes of getting out of life what there is in it—you can get that which is unworthy if you desire. You can get those exterior things which your real self will one day declare to be false and cheap. Those things are unthinking worship—money, position, place—may become the most miserable baubles with which the soul has stilled its ache.

Success. What a glittering, fascinating word! What a cruel farce it sometimes plays in the hearts of men.

If success be fairly won it may be known by the peace it brings; if unfairly won it becomes like dead ashes to the lips. When one gets a large measure of good out of himself and of worth out of life he is hero, conqueror; when one gets a large measure of bad out of himself and of unworthiness out of life he is cheated in the end.

Gallienne put the standard high—necessarily—but not too high. None of us gets all the good out of himself, or out of life, but the nearer we come up to the standard the more nearly do we come to success.

JUST LIFE

Our Fishing Experience

We sat around all summer,
And sniffed at Anglers' tales,
We couldn't muster up a rap
If they caught bass by bales.

But, finally, one day we chanced
To see a big one caught,
And forthwith bought the finest rod
And line that could be bought.

We bought a reel, a tackle box,
Some extra line and hooks,
We bought a dozen costly flies—
A specially made fly-book

We bought some high grade twisted
"guts,"
And a sixty-five cent box
To keep them moist and pliant,
So they'd curl up under rocks.

We blew our money fearlessly,
For silk enameled line,
We bought a patent rubber crab
And a phantom minnow, fine.

We bought the latest Skinner spoons,
Huge sinkers and a stringer,
The fishing outfit that we had
Was surely a humdinger.

Then we hired an oarsman,
And sought the bass to get,
We fished and fished and fussed around,
But all we got was wet.

The river had been loitering
For weeks around a stage
When bass would battle for your fly,
One need not be a sage

In fishing lore. But instantly
When we got on the scene
The water raised and raised and raised
And mud filled up the stream.

It's been above a six foot stage
Since we possessed the fever,
And now the fish cannot be lured
By the foxiest deceiver.

'Bout all the joy we ever got—
Indeed, if we got any,
Was by the fineness of our kit,
To fill our friends with envy.

What It Is

The ruber reporter was laboring over
a "society proof,"
"Point lace—peau de soie—suey,"
he mumbled.

"What's this mean," pointing a lean
finger at the 'peau de soie,' "did they
serve chop suey? It says the woman
wore it. They don't have chop suey
at weddings, do they?"

"Not chop suey, child," patronized
the society editor. "That's 'po-de-
soy'—French, you know. Its a style
of cloth."

"Oh!" sighed the unenlightened
rube as he slunk back into his shell
with the irritating "proof."

"Suey—French mull—organdie," he
mumbled.

"Say," he finally ventured, "is this

a wedding or a notice of a Jewish
funeral?"

"Why, the idea—what DO you
mean?"

Again the long, lean finger traced,
now under "crepe de chein."

"What's that?" he asked helplessly.
"Why, 'crape-de-sheen,'" replied the
society editor, fast becoming vexed.

"What is it?"

"Why—er—why, I—it means—well,
you know it's French—another sort
of delicate garb."

"Nobuddy else knows what it
means," puffed the rube.

"Why, the idea. Why, everybody
knows what that means," and so say-
ing the society editor sought a little
red pocket "handy-advice-book,"

which, by the way, she kept in a desk,
and thumbed its worn pages.

"—de chein—chien," she murmured,
"it's French, you know—chien—chien
—here it is now—chien—meaning
'dog.' Why, the idea! De chien,

meaning 'the dog.' Well," stopping in
astonishment. "Maybe I have the
wrong word—chein—chein—oh, yes!
here it is. 'Chien' means dog—like
Prairie du Chien, meaning 'the Prai-
rie Dog.' The word we want is
spelled c-h-e-i-n, meaning cloth."

"But what has all this to do with
your suggestion of a Jewish funeral,"
frowned the society editor.

"Oh, merely the suggestion," re-
plied the rube, backing off to his chair
and reddening. "It's all the way you
pronounce it, I guess. I read it 'crepe
de Sheeny'—and thought it meant
'mourning for the Jew.'"

Whereupon a disdainful silence hover-
ed over the society editor's desk.

Those "fans" are going vigorously
again, even if the weather is cold.

We suggest that Moriarity get Bol-
land, too.

BIG CROWDS AT COUNTY FAIR

Yesterday was a typical fair day
with the exception of the cool weather
which was a little too cool for fast
racing at West Salem.

Yesterday's crowd was somewhat
smaller than that of Thursday which
is always the chief day at the county
fair. Another large delegation was
sent by La Crosse.

Carrie Nation, who was billed to
speak at 11 in the morning, did not
arrive until 12:35. She delivered a
short address to the people in her
coach, and picked up a few nickles by
selling miniature hatchets, pamphlets,
etc.

The game of ball between the W.
B. U. Athletes and the Burns team re-
sulted in a victory for the former team
the score being 10 to 2.

The first official automobile race
ever held in the county took place at
the fair today. There were three en-
tries.

A running race and two trotting
events were also pulled off this after-
noon.

Mesdames D. E. Bice and H. J. Bul-
locka and Miss Daisy Bice entertained
a large number of friends this after-
noon at the former's home, 1527 Avon
street, at a 5 o'clock tea.

NOTABLE BIRTHDAYS.

Porfirio Diaz

Porfirio Diaz, the creator of modern
Mexico and for thirty years the presi-
dent of the republic, was born in the
city of Oaxaca, Sept. 15, 1830. His
parents wished to educate him for the
church, but the young man chose the
profession of law instead. He served
in the revolution against Santa Ana,
which was the beginning of his bril-
liant career. From first to last he was
prominent in the defense of his coun-
try against the combined forces of
England, France and Spain, in their
effort to convert Mexico into an em-
pire, with the ill-fated Maximilian on
the throne. On April 2, 1867, Diaz
scored his greatest victory by captur-
ing the city of Puebla after a desper-
ate assault. After the final overthrow
of Maximilian Diaz proved himself a
master in statecraft. He overthrew
one after another of the ambitious
leaders who were striving for the up-
per hand in the republic. In 1876 Diaz
finally became constitutional president
of the country. A better day began
for Mexico form the time he first as-
sumed power. That the republic ap-
preciates his work is evidenced by the
fact that he is now serving his sev-
enth term as president and is prac-
tically assured of a continuance of
his power so long as he lives.

James J. Hill, Sept. 16

James J. Hill, one of the foremost
leaders in the transportation industry
of the world, was born on a farm near
Guelph, Ont., Sept. 16, 1838. At an
early age he left his father's farm for
business life in Minnesota, which
state he has continued ever since to
call his home. His first work in the
Minnesota capital was in shoveling
a cargo into the steamers of the Du-
buque & St. Paul Packet company.
Then came eight years as levee agent
of the river transport firms. Gather-
ing together a little capital he estab-
lished a general fuel and transporta-
tion business in his own account. He
was one of the first to recognize in
the great Red River valley the bread
basket of the continent, and this was
really the beginning of his distin-
guished career. He established the
Red River Transportation company,
the first to open communication be-
tween St. Paul and Winnipeg. He
bought the St. Paul & Pacific Rail-
way company and reorganized it into
a profitable system. But his crown-
ing effort was the building of the
Great Northern railway, extending
from Lake Superior to Puget Sound,
with branches gridironing the entire
northwest, and with direct steamship
connections with China and Japan.

TEACHING OF MUSIC IN LA CROSSE

A Talk With Parents and Music Students on Timely Subject

(By ISIDOR TIPPMMANN.)

If anyone wishes to become a teacher in our public schools, unquestionable proof is demanded of the candidate that he or she has absorbed a certain course of training deemed indispensable for any one who wishes to communicate knowledge to others after principles which experience has shown to be pedagogically sound and reliable in their results. Not so in the matter of teaching music. Bismarck has said that the editors of our news-journals are mostly people who have missed their calling. This applies certainly very much to the people who teach or rather try to teach music. People who have failed in most everything they have ever undertaken, remember in the end that once upon a time they took piano lessons and become music teachers. The aspiring virtuoso, who for one reason or another has failed to reach the pinnacle of fame, finally resigns himself, buries his artistic dreams and teaches music. The young miss whose hands are too tender to do housework and considers a course in bookkeeping to tedious, has taken or will take two or three terms in music and by this she establishes her right to become a teacher. This list might be extended indefinitely, for there is practically no end to the sources and ways from which teachers of music are made. It is about as easy to become a music teacher or a professor as they are called here, as it is to become an alderman.

Most foster the belief that a beginner in music does not require a first class teacher. They try to save money by employing a cheap teacher and generally ruin the musical future of their children completely. The very best teacher is for a beginner in music just good enough. Think you, that a structure would be sound, if its foundation were shaky? The first year of instruction will determine whether or not it is worth time and money to continue music study. Wrong habits acquired during this first year are hardly ever completely eradicated. If anyone plays in a scholarly manner he will certainly owe it, next to his talent, to his first teacher. The bible word: "By their fruits ye shall know them," applies particularly well to our music teachers and their pupils.

While in the larger cities during the musical season a great number of concerts are given by first class artists, thereby offering to the ambitious and thoughtful student an opportunity to establish and cultivate a taste and love for that which is beautiful, legitimate and fundamental in musical art, we in La Crosse have absolutely nothing like a musical season. If during the winter one good pianist or violinist strays in here and gives a concert it will about make the

sum total of events which would benefit a student of music in our city. The pupil's only musical associate and example is the teacher. If this teacher has good habits, the attentive pupil will acquire them. If the teacher plays like a machine, so will the pupil, for the good old proverb, "tell me with whom you associate and I'll tell you what you are" holds good every time between a music student and his is the only available example for the pupil by which to measure and judge his work. If you wish to judge a music teacher, hear the pupils of that teacher play. If a teacher has lived and practiced his profession for from five to fifteen years in this city and has not turned out a number of scholarly players, the presumption that he did poor work as a teacher, is certainly correct. For the violinist the bowing, for the pianist the touch are the most essential points in mastering their instruments, for by a skillful management and cultivation of these factors the tone will become large, musical and convincing, in short the music will be enjoyable. But how little of this kind of music do we hear. Another important point in elementary music instruction is the choice of an instrument. "This fiddle is good enough to learn on" is generally the remark made by the parents, when they show the teacher an implement, which has nothing in common with a violin except the physical form, and that might much easier be changed into a boot jack than a musical instrument. Would these same people, if their child wished to learn to write give it the worst pen to be found? While a good player can perhaps get some enduring music out of a poor instrument, the beginner is absolutely handicapped unless his instrument has a good tone quality. It is first class economy for parents to get their children the best instruments they can afford and at the beginning of study. With a good instrument, progress will be more rapid, learning will be easier and the pupil's appreciation of music in general will be greatly enhanced. Can anyone judge and appreciate the tone qualities of a fine instrument if he has for years listened daily to harsh, unmusical tones? Tone deafness is brought on just as is color-blindness.

But the most serious impediment to music teaching in La Crosse is the entire lack of a musical atmosphere. It is hardly credible that in a civilized community of about thirty thousand people there is not enough interest in music to demand a series of good concerts during the long winter months. These conditions are truly barbaric, when we look at other cities of not near the size or importance of La Crosse but where concerts and musical entertainments are deemed necessary factors of civilized social life. For some years the Y. M. C. A. has included in its lecture courses two or three really good concerts, but even these are not to be this coming winter. Thus our usual unmusical season will be still more unmusical this year. Every good music teacher ought to bring his pupils at least once a year before the public by giving a pupil's concert. Teachers who teach piano only, could combine their class with that of a vocal or violin teacher and in this way give variety and interest to the program. I know by experience the great benefit which pupils

derive from these concerts.

This hastily written sketch is published in the interest of good music in La Crosse. Teachers can exercise a mighty influence in the bettering of musical conditions in our midst and if the people will support the teachers, who by their pupils show that they are worthy of support, the result will doubtless be beneficial all around. I wish to emphasize particularly that the object of this article is not a solicitation for pupils on my part, for my time is completely occupied and am not able to teach all who apply for lessons.

MUST PAY FOR USE OF PRIVATE SEWER

When Alderman Grover charged the different members of the committee on streets and alleys with showing favors to the St. James congregation in ordering the construction of a private sewer on Windsor street from Avon to Caledonia, there was a lively scene created in the council. He claims that this was done without the matter being presented to the common council for consideration. Charges of irregularity and a demand for an explanation was also made on the committee.

The aldermen who were responsible for ordering the work done, Keller, Schulze and Smith, explained that for some time past they had received numerous complaints from property owners in that vicinity complaining that during heavy rains the sidewalks were overflowed, and that after careful investigation of the matter had decided to install a private sewer at a cost of \$300. The work was done by the board of public works before it was brought before the council for consideration.

Alderman Schulze, immediately after the charges of irregularity had been made announced that if there had been any irregularity he would pay \$100 if the remaining members of the committee would do the same. Alderman Keller next introduced a resolution providing that the board of public works be instructed not to allow anyone to connect with the sewer in question without first paying his proportionate share of the cost of the sewer and if any connections have been made that the board order them discontinued unless the proper share of the cost is paid.

A petition from L. F. Easton, W. W. Cargill, J. M. Hixon and B. E. Edwards was granted. This will give the city of La Crosse a chance to test the creosote black pavement on Cass street. The new pavement will extend from West avenue south to a point 187 feet west of Fourteenth on Cass. The petitioners agreed to pay all the expenses with the exception of a fifty-foot crossing. This they would be required to do anyway.

The ordinance further provides that no city official shall accept any free passes and provides a fine for violation of this provision. The ordinance was referred.

A petition from Wooley & Hanson asking for an extension of time in their contracts for improving certain streets was referred to the special street improvement committee.

An ordinance fixing the grade on Pine, Vine and State streets from Twenty-second street to Losey boulevard was adopted.

J. C. Raymond was elected justice of the peace for the Sixth ward to fill the unexpired term of Henry Frankensen, resigned.

The petition of the La Crosse Interstate Fair association asking that the Mississippi river wagon bridge be made free during the week of the coming fair was granted.

S.S.S. CURES ECZEMA

The real cause for Eczema is the presence of humors and sour acids in the blood. These impurities get into the circulation because of imperfect action of those members of the system whose duty it is to collect and carry off the refuse and waste of the body. As this effete matter lies in the system it ferments and generates acid humors which are absorbed into the blood, overcharging this vital fluid with acid. In its effort to keep the system healthy the blood throws off the humors through the pores and glands of the skin, causing this tormenting skin disease. The escape of acids and humors through the pores and glands irritates and burns the skin, producing pustules filled with a clear, sticky fluid, which dries in crusts and patches causing the most intense itching, and often pain. The trouble is in the blood, and S. S. S. is the remedy for Eczema, because it is a real blood purifier. It goes down into the circulation, removes all acids and humors and makes the blood rich, pure and healthy. When S. S. S. has done this the symptoms pass away, the blood is cooled and the disease cured permanently. Nothing acts so promptly or pleasantly in all skin diseases as S. S. S., and it is at the same time a fine tonic to the entire system. Book on Skin Diseases and medical advice free.

EYE EXAMINATION ROLLS ENGINEERS

BURLINGTON SYSTEM THREATENED WITH GENERAL STRIKE

Drastic Rule Operates to Place Many Old and Skilled Engine Drivers on Unimportant and Unremunerative Runs

J. J. Hill Appealed to to Have Obnoxious Order Rescinded

The effect of the order was so sweeping that Grand Chief Warren S. Stone of the Brotherhood of Locomotive Engineers at midnight telegraphed James J. Hill at St. Paul requesting an immediate conference.

"Many railroads for years have enforced rules requiring a rigid physical examination," said Vice Grand Master Cadle of the engineers' brotherhood, "but the Burlington regulation is extreme in that it practically debar from service men whose vision is slightly imperfect."

The rule in question pertains to engineers and establishes a standard for eyesight said to be more rigid than any thus far enforced by the railroads of this country. It will necessitate more care upon the part of those starting in the railroad service to see that they do not abuse the eyes and suffer them to strain by reading, etc., in poor light. The use of glasses on such occasions will be the means of promoting healthy and strong eyes. Few people realize the importance of the care of their eyes in this day and age and weak eyes are the result when they become middle aged. The effect of the new Burlington rule, it is asserted will be practically to fix an age limit for railroad employees.

A large per cent of railroad men are obliged to adopt glasses as an aid to vision after they have reached middle life, to enable them to read with comfort, but do not use them in running. The early use of glasses for reading purposes only tends to keep the distance sight perfect in old age.

Glasses for this purpose must be perfect in every way and care exercised in their adoption for your eyes. We know of no better man than H. C. Evenson, the eyesight specialist, at the Park store.

NEWS FORECAST OF COMING WEEK

WASHINGTON, D. C., Sept. 15.—Hearings will be begun in New York Monday by the commission on rules and regulations of the pure food law in order that the food manufacturers of the country may have an opportunity to make suggestions concerning regulations for the enforcement of the new pure food law.

Republicans of New Hampshire will meet in convention Tuesday to name a state ticket. More than ordinary interest centers in the event because of the fight of Winston Churchill, the novelist, for the gubernatorial nomination. The great issue of the fight is the question of corporation domination in politics.

The foggy condition of the political atmosphere in New York is likely to be considerably clarified by the primaries on Tuesday. The factional

disputes in both the republican and democratic parties will make the primaries the hardest fought in years.

The republican factions in Connecticut will fight it out for control at the state convention to be held Wednesday.

The football season of 1906 will be ushered in Saturday with several games in both the east and west. As a rule the games will be in the nature of practice skirmishes in which the larger colleges will line up against some of the smaller schools as a first step in the work of getting into proper trim for the big games to be played later in the season.

Three unusually large conventions are to be held in Canada during the week. The most important of these is the annual communication of the sovereign grand lodge of Odd Fellows, which will attract members of the fraternity to Toronto from many parts of the world. The Canadian Association of Manufacturers will meet in Winnipeg Monday, and the Dominion Trades and Labor congress will begin its sessions the same day in Victoria, B. C.

Today there was a meeting of the Grand Council, Patriarchs Militant, at King Edward Hotel, and the officers and members of the sovereign grand lodge and their ladies were tendered a civic reception and luncheon at St. Catharines, to which place there was an excursion.

Tomorrow the Odd Fellows will attend divine services at St. James' Cathedral. On Monday there will be a great deal going on. In the morning visitors will be given a public welcome in the legislative chamber of the Parliament Building, when there will be addresses by the Hon. William Mortimer Clark, lieutenant-governor of the province of Ontario, and others. Among the attractions in the afternoon will be the prize drill at Exhibition park, the exercises being conducted by Colonel W. S. Johnston, department commander of Ontario. On Wednesday there will be exercises similar to those conducted on Tuesday, and on Thursday, besides a continuation of the exercises as on the days before, the Rebekahs and their guests will be given an illuminated car ride about the city. The feature of Friday's program will be the reception tendered the officers and members of the sovereign grand lodge by the mayor and the council of the city of Toronto.

ODD FELLOWS' ARE GATHERING AT TORONTO

TORONTO, Ont., Sept. 15.—Odd Fellows from all parts of Canada, the United States and Mexico, with a delegation from Hawaii, gathered in Toronto today for the eighty-second annual session of the sovereign grand lodge, which will be held here during the coming week. It is estimated that by Monday more than 30,000 members of the fraternity will be in the city. Auxiliary organizations will meet during the week. These include the Rebekah Assembly and the Patriarchs Militant.

Today there was a meeting of the Grand Council, Patriarchs Militant, at King Edward Hotel, and the officers and members of the sovereign grand lodge and their ladies were tendered a civic reception and luncheon at St. Catharines, to which place there was an excursion.

Tomorrow the Odd Fellows will attend divine services at St. James' Cathedral. On Monday there will be a great deal going on. In the morning visitors will be given a public welcome in the legislative chamber of the Parliament Building, when there will be addresses by the Hon. William Mortimer Clark, lieutenant-governor of the province of Ontario, and others. Among the attractions in the afternoon will be the prize drill at Exhibition park, the exercises being conducted by Colonel W. S. Johnston, department commander of Ontario. On Wednesday there will be exercises similar to those conducted on Tuesday, and on Thursday, besides a continuation of the exercises as on the days before, the Rebekahs and their guests will be given an illuminated car ride about the city. The feature of Friday's program will be the reception tendered the officers and members of the sovereign grand lodge by the mayor and the council of the city of Toronto.

Seattle is sending a large delegation in an effort to secure next year's meeting of the sovereign grand lodge for that city. Bids are expected also from several other cities and a lively contest is likely.

EIGHTIETH BIRTHDAY OF GRAND DUKE

(Tribune Special Service.)
BERLIN, Sept. 15.—The little duchy of Saxe-Altenburg is preparing for elaborate festivities tomorrow, in celebration of the eightieth birthday of its ruler, Duke Ernst. The Duke has occupied the throne for more than fifty years. His consort died nine years ago leaving no male issue, and next heir to the throne is the Duke's only brother, Moritz. Prince Moritz, who is a man 77 years old, enjoys the reputation of being the most utterly blame man in all Europe, and, although in perfect physical condition, had been in the habit of staying in bed for weeks, not because he was ailing, but simply because, to use his own words, there was "nothing worth getting up for." Under the circumstances it is probable that when the present ruler passes away, Prince Moritz will abandon his rights of succession to his only son, Prince Ernst, on the ground that it would be "too much of a bore" to reign. Prince Ernst is 35 years old and is married to Princess Adelaide of Schaumburg-Lippe.

GAYLORD, SOCIAL DEMOCRAT, MAN OF FAME

Winfield R. Gaylord, the social-democratic candidate for governor, who is to speak at Malin's hall tonight is one of the striking types of men which the social-democratic movement is attracting to itself everywhere. For years a prominent minister of the Gospel he has served in some of the best churches in the country; a musician of the finest artistic tastes he has made an enviable reputation for himself as the basso in a male quartet of national reputation; a lecturer of marked ability he appears often before the summer chautauques, speaking upon themes entirely apart from socialism; born in the south; educated in the north; trained first in the school of hard knocks, and later in the Northwestern University and the Chicago Seminary; he finally became deeply interested in the struggles of the common people with the corporate greed of the country, and began the study of sociology.

From this point of view and while yet a pastor of a prominent church in Wisconsin, he became a socialist. His constant effort to apply practically in his pulpit and ministerial

work the new ideas which he had gathered in his studies had the double effect of making him popular with the people but unpopular with the moneyed men who dominated the policies of the churches of which he was pastor. The result of this was that in the year 1902 he left the active work of the ministry, while retaining his standing as a clergyman, to devote his whole life and energy to the propaganda of the social-democratic movement, especially in Wisconsin.

As congressional candidate in the fourth district of Wisconsin he led the ticket in the number of votes polled, and whenever he has been a candidate, has proven to be a strong one.

Mr. Gaylord has traveled widely, especially in the south and west as a lecturer for the national organization and as such is recognized as one of the most prominent figures in the rising socialist movement of America.

As candidate for governor this fall, Mr. Gaylord's well known ability as a forcible and winning public speaker will have much to do with furnishing a strong and effective presentation of the cause of the social-democracy to the people.

His coming gives the people of this vicinity a rare opportunity to hear a very able exposition of the program of the social-democracy.

RETIREMENT OF GENERAL CORBIN

(Tribune Special Service.)

WASHINGTON, D. C., Sept. 15.—Lieutenant General Henry C. Corbin, who has the distinction of being the only Adjutant-General of the United States Army to reach the high grade of Lieutenant-General, was placed on the retired list today by the operation of the age limit. General Corbin leaves the active service after a long and distinguished career. Like General Miles he is not a graduate of West Point. He was born in Ohio and entered the army as a volunteer. After the civil war he passed a satisfactory examination and was accepted as an officer in the regular army. From the administration of Lincoln to that of Roosevelt he has always been very near the person of the president. He was the adjutant at the inauguration of Garfield, Cleveland, Harrison and McKinley. In the war with Spain much of the work of organizing the volunteer army fell upon the shoulders of General Corbin, and he met the duties and responsibilities with an executive ability that commanded admiration and praise. It is not too much to say that he had more to do with the detailed work of molding the army into form than any other officer of the government, and he was one of the most influential advisers of President McKinley.

The retirement of General Corbin results in the promotion of Major-General Arthur MacArthur, one of the most popular officers in the army, to the grade of lieutenant-general. The vacancy in the list of major-generals is filled by the promotion of Brigadier-General Jesse M. Lee. Major-General A. W. Greely, late commander of the department of the Pacific, is transferred to St. Louis to succeed General Corbin in command of the northern division.
